

LEGISLATION TOBACCO RETAIL

As of **1 July 2024**, you will not be permitted to sell tobacco and smoking products in catering or retail establishments. How will this impact you? Sligro is here to help you on your way:

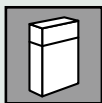

As of **1 July 2024**, you will only be allowed to sell smoking products as a **registered tobacco retailer**. You will then only sell tobacco products, smoking accessories, lottery tickets and daily newspapers. Would you like to sell food and drinks in addition to tobacco products? You can do so from a **separate** shop with its **own** front door. This also applies, therefore, to shipping points for courier services (PostNL, DHL, etc.)

As a tobacco shop, you stock your products according to several stipulated rules;

In **closed** packaging.

With a **neutral** background.

Without promotional prices.

Health warning **clearly** readable and facing forward.

Sligro
will stop
selling
tobacco

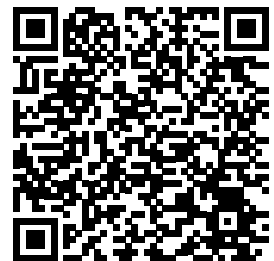

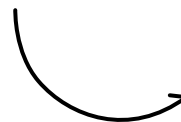

As of **1 July 2024**, Sligro will also no longer sell **tobacco products**. As of **1 June**, smoking products will only be available by order. The last day to order tobacco products is Thursday **27 June**, and for the collection of tobacco products this is Friday **28 June**.

Would you like to continue selling tobacco products?

Register with the NVWA as an **exempted tobacco shop**.

You can do so here
